

## SUMMARY OF ST. LOUIS MARKETS.

Weather was the sole factor in yesterday's local wheat market. Whereas a few weeks ago there would have sent prices toward the bottom, the same influence now gives future prices a sharp upturn. There was nothing but moisture in the news, and the crop killers were busy circulating reports of flooded fields and water-logged shocks. The most reliable information was that conveyed by the Government report, which said that wheat already harvested had been seriously damaged by rains in Missouri, Illinois and Nebraska. Foreign markets were generally easy. The shorts were pretty well scared in the early part of the session, and, while trading was not heavy, there was good buying until the close. Operations were mainly by small speculators. Professionals were not active.

There was something of a hitch in the Harris-Gates manipulation, and this, with lack of outside interest, bore down on the course grain. July wheat closed lower, but there was a slight rally in Sept. near the end of the session.

July wheat opened 1/4 up and closed 1/4 up. Sept. opened 1/4 up and closed 1/4 up.

Sept. oats closed 1/4 up.

Receipts of produce were moderate and prices were generally steady to higher.

Trading in local securities was light, with values well sustained for tractions and banking issues.

Yesterday's bank clearings were \$2,255,835; balances, \$1,235,734. Discount rates were steady between 5 and 6 per cent.

Spec cotton was quiet and unchanged in the local market.

### WET-WEATHER SCARE BOOSTS WHEAT PRICES.

### CORN CONTINUES ON DOWNTURN.

### Harris-Gates Crowd Not Active and Local Speculation Light.

Wheat was strong and corn weak in the local market yesterday. A scare among the wheat shorts developed earlier and continued unabated until the close. Weather was the principal parish factor. Official reports indicated that heavy rains had fallen in Missouri, Iowa, Illinois, Kansas and Nebraska and there was precipitation in other winter belt States. Receipts, though smaller than on the corresponding day last year, were fairly large and foreign markets were easy. Buying on the weather was the rule throughout the session. The market has been much improved in the shock in Missouri, Illinois and Nebraska. July wheat opened 1/4 higher and sold at:

July, No. 1, 1/4 up, 18c 33/4; No. 2, 1/4 up, 18c 33/4; Sept., 1/4 up, 18c 33/4. Oct., 1/4 up, 18c 33/4.

Corn was strong in the morning with, however, the decline was much easier near the close. Trading was at no time heavy. Other markets were not as active as had been expected.

Trading in stocks for the corporation and no deliveries here. July closed weak, and Sept. scored a slight gain.

July corn opened 1/4 up and sold at:
